Segment-wise Performance

The Company operates in One reportable segments i.e. Movies and entertainment. The Business Segments has been identified as separate segment in accordance with Accounting Standard 17 'Segment Reporting'.

Risk Management

This industry is facing competition from established producers and production houses. A lot of Companies are entering this arena and the cost efficient competitors are increasing. Also in the global scenario, there is huge advent of animation and gaming companies in China, Korea, Philippines and Singapore which have huge cost advantage like India. Over and above that, the Government in such countries is actively supporting the growth of Media Industry by introduction of subsidies and initiation of several schemes to support Animation Companies.

Scarcity of Human Capital is an inherent problem with this industry. The skill required here has to be combination of creativity and synergizing of technology to bring the best results. There are very few training centres providing training which cater to the needs of the Industry. Also there is a lack of any organized channel of education and awareness as relating to the potential of this industry. This Industry is very capital intensive and typically requires high-end systems and storage equipment and proper infrastructure planning. Higher cost of funds may result in lower margins.

Also the methods, software used in this field are dynamically changing and the advent of new technology, techniques and upgrades seem to be very fast. It poses a continuing challenge to companies in this Industry to adapt to newer technologies and also for the personnel to get trained and use these effectively.

Opportunities in Movies and entertainment Industry

The Indian media and entertainment (M&E) industry is one of the fastest growing industries in the Country. Its various segments—film, television, advertising, print and digital among others—have witnessed tremendous

growth in the last few years. According to a 2009 report jointly published by the Federation of Indian Chambers of Commerce and Industry (FICCI) and KPMG, the media and entertainment industry in India is likely to grow at a compound annual growth rate (CAGR) of 12.5 per cent per annum over the period between 2012-14 and touch US\$ 25.09 billion by 2015.

With a majority of the population below the age of 35, and increasing disposable income in Indian households, the average spend on media and entertainment is likely to grow in India.

With the economy doing very well and poised for a leap in the next five years, the Indian Entertainment Industry is expected to outperform the growth in economy by a significant margin in the coming years. The opening of the film industry to foreign investment coupled with the granting of industry status to this segment has had a favourable impact, leading to many global production units entering the country. In keeping with global trends in the sector and current growth opportunities, your directors are confident that in the intensifying competitive scenario your company with strength of standards of creativity, quality and strong marketing fundamentals is equipped in all facets to meet and beat in the business.
